Possible Response Messages

1. Success Response Code & Message

Message Sent/Scheduled

The following response code (600) and message appear when a message is successfully sent or scheduled.

```
600: Message sent/scheduled successfully
```

Credit Balance

When a successful Credit Balance API call is made, the response will be the numeric credit balance of the main account or the API-X sub-account as the case may be. For example,

```
1234.12
```
